Pennsylvania Game Commission News

BOARD APPROVES EXPANDED USE OF CROSSBOWS

The Pennsylvania Board of Game Commissioners today gave final approval to expand the lawful use of crossbows to include both the archery deer and bear seasons for the 2009-10 seasons. The Board amended the proposal by including a sunset date for the expanded crossbow use that will require a future Board to vote on the measure again before June 30, 2012.

Under the new regulation, a crossbow must have a peak drawn weight of at least 125 pounds, and a bolt must be equipped with a broadhead that has an outside diameter or width of at least 7/8 inches with at least two cutting edges on the same plane throughout the length of the cutting surface, and shall not exceed three inches in length.

Also, before giving the measure final approval, the Board adopted an amendment to prohibit the use of magnifying scopes for archery equipment and crossbows during the archery bear and deer seasons. The use of non-magnifying scopes – such as those that provide a red dot for sighting purposes – will continue to be legal.

The proposal given approval also would remove the lawful use of crossbows during the October muzzleloader or late flintlock muzzleloader season. Other changes made by the proposal simplify and make the language of the regulations easier to understand.
