Shoot any time Saturday through Friday

Registration Sat & Sun 8am – 12pm

Use lock box any other time

Kids under 16 - \$3.00

Adults - \$6.00

Pennsylvania Game Commission News

Release #045-09

DEER SEASONS TO BE SIMILAR FOR 2009-10

The Board of Game Commissioners gave final approval to a slate of deer seasons for the 2009-10 seasons that retains all of the opportunities provided in the past to address the goals of the agency's deer management plan. The only significant change was the Board's vote to extend the late flintlock season for Wildlife Management Units (WMUs) 2B, 5C and 5D to run from Dec. 26 to Jan. 23.

BOARD APPROVES ANTLERLESS DEER LICENSE ALLOCATIONS

The Pennsylvania Board of Game Commissioners today approved antlerless license allocations for each of the 22 Wildlife Management Units (WMUs) based on measurements of deer health; habitat health; and level of deer-human conflicts based on Citizen Advisory Committee (CAC) input; as well as deer population trends.

The agency continues to seek a decrease in the population trends in WMUs 2B, 5C and 5D, which are the three most developed areas of the state. Based on CAC input, and supported by scientific measurements, the agency is continuing to allow for an increase in the population trend in WMUs 4E and 5A. In all other WMUs, the agency continues to seek stabilization of population trends. **The only WMU to see an increase in its allocation is WMU 5C, which increased from 92,000 last year to 113,000 for the 2009-10 seasons.**

For more information on these measurements, both the quantitative thresholds and qualitative labels, please see "[Deer Program](#)" on the agency's website (www.pgc.state.pa.us) in the "Quick Clicks" box in the right-hand column of the homepage.
